LETTER OF DEFICIENCY #WELL - 04-05

Subject: Community Well Constructed at Moody Point, Newmarket, NH

Dear Mr. Goodwin:

A review of the New Hampshire Department of Environmental Services ("DES") public water supply records indicate that Judd Goodwin Well Company constructed a community well for Epping Well & Pump at the Moody Point subdivision, Newmarket, NH, on September 26, 2001. A search of the NH Water Well Board ("Board") records indicate that the well completion report for this well was not submitted to the Board.

RSA 482-B:10 and We 801.03(a) and (c) require a water well contractor to file a well completion report with the Board within 90 days following completion of the well.

Please submit the original well completion report to the Board within 14 days of receipt of this notice.

The DES record is a facsimile of the well completion report which was submitted to the DES, Source Water Protection Program. Please note that reports submitted to DES in association with permits or approvals does not satisfy the requirement for filing well completion reports with the Water Well Board, pursuant to RSA 482-B:10.

Failure to comply with this request within 14 days may result in the issuance of an administrative fine in accordance with the provisions of RSA 482-B:16 and Env-C 616.02 (e).

If you have any questions, please call Rick Schofield at 271-1974.

Very truly yours,

COPY
